

PREMIUM HOMINY MEAL

Product Code #1369

PRODUCT DESCRIPTION

Made from dried corn kernels, our premium feed is a pre-ground mixture of corn germ, grits, high fat flour, extraneous corn meal, bran and screenings. Since it is pre-ground it flows well and is ready to feed or blend. Our feed is known to be among the highest in fat and protein in the milling industry. High protein plus high fat equals high energy! The milling process also concentrates many essential amino acids, i.e. lysine and tryptophan.
